MISSION

To facilitate the revitalization efforts and continue to foster diversity within the Northeast Neighborhood - its residents, businesses and stakeholders - into a safe, vital, cohesive community that preserves its assets and respects the needs of all who reside, work and visit within its boundaries.

GOALS

- A safe, clean and attractive neighborhood
- An economically and ethnically diverse community
- High-quality housing and increased home ownership opportunities
- Attractive and appropriate retail and commercial development
- Good schools and improved educational opportunities

CORE STRATEGIC DEVELOPMENT

Resident Driven: Involve neighborhood residents in the revitalization process and use their involvement in the process to help achieve personal growth.

Collaboration: Create partnerships between NNRO and private businesses, nonprofit institutions and government agencies.

Economic Development: Create an investment-friendly environment to foster economic development in the neighborhood.

Partnerships: Partner with local non-profits and private entities to create impactful partnership developments, including new housing options and support for holistic development for the betterment of the entire neighborhood.

NEIGHBORHOOD
RESIDENTS

Since 2002, SBH has assisted the NNRO in developing and implementing projects in the NE Neighborhood, as well as managed business operations.

Preserving Housing Affordability

Over the past 19 years, the NNRO has built or rehabilitated a total of 149 homes in the Northeast Neighborhood. Realizing the vision of creating a shared neighborhood, in partnership with the City of South Bend, **approximately 34% of all homes built or rehabilitated since 2002 have been affordable homes.** Additionally, nearly all the affordable homes that were built have a deed restriction that preserves affordability on the home for 15 years, ensuring that all potential homeowners continue to have the opportunity to live in the NE Neighborhood.
